

Conclusions from the seminar for the Polish HE sector

*Bologna Seminar on
„HEI as a places integrating...LLL”*

Warsaw, 10 June, 2013

Ewa Chmielecka
Bologna Expert

Summary by Andrzej Kraśniewski:

Problems and challenges of LLL strategies implementation

- insufficient awareness and understanding of needs and potential benefits among academic community
- no tradition and lack of experience
- no legal framework (under development)
- shortage of qualified staff (especially, for advising, tutoring, ...) and experts/trainers
- uncertainty about quality

Big challenge, a lot of question marks

- We need to learn a lot
- ... this will be our LLL experience

Very true indeed.

What do we have in hand?

- National legislation on LLL
- Polish Qualifications Framework for LLL accepted by
 - the EQF Advisory Group
 - the national decision-making bodies
 - Fully and truly implemented in HE sector
- Quite well developed “permanent” higher education
- cooperation with EUCEN, thank you very much!
- and PULL (good practice)

and

- Demographic and financial pressure for the PL HEIs
- Knowledge oriented social needs
- Labour market more and more demanding
- Other factors

What do we plan to do?

- 2012/13 →? Bologna Experts activities focused on strategic issues of the LLL implementation
- Developing the RPL units and their network due to expected legislation
 - Jagiellonian University project
- Projects supported by IBE/ERI and Polish Rectors Foundation
 - “HEI as an integrator of .. LLL”
 - “Level 5 of the PL QF”
 - Other projects to be discussed
- EUCEN 2014 annual conference in Warsaw School of Economics
 - Network of HE Schools of Economics member of EUCEN in 2014?
- Other initiatives? Comments ? proposals?

Prospects for LLL/LWL HEIs strategies ?

Let me repeat:

- Big challenge,
- a lot of **WORK**, LESS QUESTION MARKS
- We need to learn a lot
- ... this will be our LLL experience

Thank you for your attention !
