The 46th EUCEN Conference

„Lifelong Learning Universities and European policies on social investment”

June 11-13, 2014

- Venue and organisers:

SGH (Warsaw School of Economics), Warsaw, PL
and Polish **Educational Research Institute**

- Co-operation of:

University of Gdańsk

Polish Universities for Lifelong Learning Network (PULL)

WHY SOCIAL INVESTMENT?

Recently recommended „**Social Investment Package**” – on the one hand - means policies designed to strengthen people’s skills and capacities and support them to participate fully in employment and social life.

On the other, it evokes a need of critical approach.

- LLL-Universities should take the conference as an opportunity to discuss and define their understanding of the „social investment”.
- A position paper could be an output of the conference by defining our understanding in implementing measures that allow people at all ages to develop their skills and capacities for their social, cultural and economic activity.

PROPOSED THEMES

- Innovations in development of skills and competencies of learners
- Reconciliation of work-education-family activities in the life course
- Examples of „social investment” as ULLL-contribution to the knowledge bank of good practices
- Returns of investing in lifelong learners.
